Attend because you want to:

- **Fix Metro first** because that is what the law requires
- **Save 48 acres** of irreplaceable forest and green space that benefit public health and the environment
- **Fight excessive heights and densities** in local over-development plans
- **Protect taxpayers** from a 30-year increase in Maryland de facto debt that would be the largest-ever in the state's history

The Federal Purple Line Lawsuit does all this, and more!

Friends of the Capital Crescent Trail -- and all the citizens supporting this lawsuit with volunteer work and hundreds of donations totaling more than \$60,000 in 2016 -- won a huge victory when the court in August 2016 suspended the Purple Line pending further assessment. The Purple Line agencies have been pushing back in court and with "pre-construction" activities but we are pushing back as well. The judge may issue a new decision in the near future. The fight continues!

WE CAN CONTINUE TO WIN with your help.

Please come, learn more from the experts, lawyers and policy professionals who will be there to answer your questions and take your ideas, and donate to sustain this effort.
